

# **SPRING WATER AWARENESS**

**As warmer spring weather approaches, snow and ice begin to melt and waterways fill with cold, fast moving water.**

## **ALWAYS REMEMBER:**

- ▶ **STAY AWAY** from all lakes, rivers, streams, creeks, ditches and ponds
- ▶ **STAY AWAY** from thin ice!
- ▶ **STAY AWAY** from fast moving water!
- ▶ Water is very cold at 0°C to 5°C!
- ▶ Hypothermia sets in within five to ten minutes and can be life threatening!
