SAWMILL CREEK CLEANUP

RIDEAU VALLEY August 1, 2008 — City Stream Watch is planning a cleanup on Sawmill Creek for August 9th. Sawmill Creek is one of our most urban creeks, running from its headwaters along Lester Road, through South Keys and along Bank St., where it flows into the Rideau River at Billing's Bridge. There is a lot of garbage that has collected along the creek, and this will be Phase I of the Sawmill Creek Cleanup. Phase I of the cleanup will be between Heron Park and Billing's Bridge. We will meet at Heron Park at 9am and the cleanup will run until 12pm.

Directions: Heron Park is off of Heron Rd., east of the Airport Parkway and west of Bank St. From Heron Rd., turn north onto Clover St., and the community center and park is on the left side of the street. We will park and meet there.

Please bring: Drinking water, sun block, rubber boots, chest waders or sturdy footwear

-end-
