

Executive Summaryi

Table of Contents

1.0 Introduction1

- 1.1 Purpose of the Plan1
- 1.2 Study Approach2
- 1.3 Study Process2
- 1.4 Success of the Plan7

2.0 Watershed Overview/Current Conditions9

- 2.1 Hydrology/Hydraulics9
- 2.2 Surface Water Quality11
- 2.3 Ecology12
- 2.4 Hydrogeology15
- 2.5 Land Use18
- 2.6 Summary of Issues21

3.0 Watershed Objectives25

- 3.1 Water Quality Objectives25
- 3.2 Wildlife/ Naturalization Objectives26
- 3.3 Socio-Economic Objectives26
- 3.4 Water Quantity Objectives27

4.0 Watershed Management Strategy29

- 4.1 Remedial Measures32
 - 4.1.1 Water Quality Objectives32
 - 4.1.2 Wildlife/Naturalization Objectives38
 - 4.1.3 Socio-Economic Objectives41
 - 4.1.4 Water Quantity Objectives45
- 4.2 Land Use Planning Measures52
 - Opportunity Level One52
 - Opportunity Level Two52
 - Opportunity Level Three52

5.0 Monitoring Strategy55

6.0 Summary57

7.0 Getting Started59

- What a watershed resident can do59
- What a landowner living by water can do59
- What an elected official can do59
- What local businesses can do60

8.0 Glossary61

9.0 Bibliography63
