

The Rideau Valley Conservation Authority is the lead inter-municipal agency working to address river-related environmental issues and concerns within the Rideau Valley watershed. It's our job to make sure that the water is looked after by everyone in today's society so that tomorrow's generations inherit a clean, healthy, functioning watershed. We also provide residents with close-to-home natural areas and programs that are accessible and affordable. We currently own and maintain a network of nine Conservation Areas and an additional 4,500 acres of environmental land.
