### Notes for Schedule "A":

Reviews are undertaken in accordance with the Conservation Authority's mandates and are directly related to circulation requirements under the Planning Act and the 2001 Provincial Memorandum of Understanding on Procedures to Address Conservation Authority Delegated Responsibility. Some reviews are completed under Municipal Memorandums of Understanding and agreements with the Provincial and Federal governments to provide planning advice. Section 21.2 of the Conservation Authorities Act enables Conservation Authorities to charge fees for such services.

Fees are exclusive of technical report review fees (refer to Schedule C). All fees must be paid prior to the release of written comments to an approval authority. For concurrent applications, unless otherwise stated, one fee (the highest) applies.

The CA reserves the right to charge additional fees, including for preconsultation, if the review requires a substantially greater level of effort than the norm, additional site visits, or more than one meeting etc., OR where additional processing past the initial submission period is required. Current fees apply for the reactivation or revision of files.

Application Categories: Minor – no technical studies, Standard – one technical study, Major – more than one tech. study.

Screening fee applies inside the Urban Boundary only as defined on Schedule "B" to the City of Ottawa Official Plan approved at the time of application.

Reviews are prepared by 'qualified professionals' in the fields of water resources engineering, groundwater science, site servicing, geotechnical engineering, environmental assessments, floodproofing, ecology and planning to support appropriate development. Our reviews involve evaluation of whether the applicable guidelines and legislation have been appropriately addressed.

Technical report review services are tracked per file on an hourly basis. Where the reviews exceed the standard allocated review time, or require multiple submissions, re-reviews, RVCA reserves the right to charge an hourly professional rate (Schedule "D") in addition to the initial fee.

Major projects are those with a high level of concern about the local environment, complex ecological, groundwater and surface water interactions and which may require RVCA staff attendance at multiple meetings with proponents, consultants, or public meetings to satisfy regulatory requirements.
