

# RIDEAU VALLEY RURAL CLEAN WATER PROGRAM

## Controlled Tile Drainage

**Project Intent:** To manage tile drainage outlets to reduce contaminant loading to surface watercourses.

### Eligible Project Activities/Components

- ▶ Commercial tile drain control structures
- ▶ Drainage headers to reduce the number of required control structures
- ▶ Retro fitting of tile drain control structures into existing tile drainage
- ▶ In the case of an addition of tile drain control structures to a new tile drain project, only the cost of the control structures and tile header is eligible for funding

### Technical Details/Considerations

- ▶ An *Environmental Farm Plan* (third edition or newer) is required
- ▶ Municipal Drainage Superintendents must be informed of work completed along a municipal drain
- ▶ Future maintenance of the control structures is the responsibility of the landowner

### Eligible Costs

- ▶ Permits and approvals
- ▶ Purchased materials and supplies
- ▶ Equipment rentals related to installation of control structures and headers
- ▶ Contract labour and professional fees

### Ineligible Costs

- ▶ Installation or repair of tile drainage system
- ▶ Construction ditches
- ▶ Taxes (HST)

It is the applicant's responsibility to meet all municipal, provincial and/or federal regulatory or legal requirements.

### Maximum Cost Share Available

80%

### Maximum Grant

\$1,000
